GARAGE DOORS

Up & Over Wicket  
Garage Door  
From Henderson

# Single Skin One Piece Wicket Doors

Our Wicket up and over doors have a built in pass door - perfect for those times when you want access to your garage without opening the whole door. It opens just like a normal side door and when you need it to open fully it operates like a standard up and over garage door. All doors are factory finished with a high-grade white powder-coating, with the option of a variety of colours for all sizes. All doors come complete with a galvanized steel mounting frame supplied in the same colour as the door and include retractable gear with MAXIPLUS for improved drive through width.

White  
RAL 9010

Brown

BTX 7700

Metallic Green  
BTX 4702

Metallic Graphite  
BTX 5703

Standard White

Optional Metallic Black

Security is solid and dependable. The attractive black handle sits easily in the hand and is lockable. Strong steel bracing ensures the door is a barrier to forced entry.

Cable operated steel latches engage every time with positive clunk. Latches are quickly retracted by the internal or external handle.

Every door includes MAXIPLUS operating gear as standard - narrow profile, high level lifting arms ensuring maximum drive through width at wing mirror height.

The bottom threshold provides an excellent seal against leaves and other debris blowing under your door. It can be removed if a flush threshold is preferred.

The door is built to fine tolerances that means no unsightly gaps around the door and a rigid strong panel that is durable and long lasting.

Spring assisted arms ensure the door is light and easy to operate. Retractable operation is ideal for adding a remote control motor.

Up and over doors feature a retractable opening mechanism that lifts the door up and back into horizontal track for reliable and easy operation every time.

Doors with a built in "Wicket" access door have an additional handle and lock to operate and secure the door. The handle engages and releases twin cable operated latches.

## Simply Convenient

## Retractable Gearing

## Strong Steel Bracing

If you would like better thermal performance from your door - just ask - we can upgrade wicket doors with insulation between the outer skin and an added PVC back.
